Board of Trade holds Annual Meeting.

Election of Officers - Spirited Discussion of Various Matters of Local Interest.

The annual meeting of the Bow Island Board of Trade was held on Monday night, in the I.O.O.F. hall, the president, A. F. Werts, being in the chair.

The president, in a few opening remarks, stated the reasons for the meeting that night, and enumerated a few of the subjects that would probably require discussion. In regard to the municipal hospital he could not tell them anything more than that they already knew, beyond the fact that from a letter he had received a few days ago he believed the matter would be put before the people about next June. He understood that the department at Edmonton were now endeavouring to get that piece of land lying north of the river included in the hospital district.

Mr. Werts then vacated the chair, and Mayor Reid being placed in temporary occupation, the election of officers was proceeded with, the result being as follows:-

President, R. S. Beattie.
Vice-president, J. M. Bratton.
Secretary-treasurer, A. Rolfe.
Executive committee—G. H. Allen, Jas. Reid, A. Swennumson, I. D. James, A. F. Werts, J. Pollitt, L. M. Goules, M. J. Bradford, N. R. Carson.

Membership committee—A. Swennumson (chairman), G. M. Allen, and Jas. Reid.

Finance committee—Messrs. J. G. Carson and J. M. Milroy.

Booster Committee—The whole Board.

The president (R. S. Beattie), in thanking those present for electing him, told them candidly that he did not want the job unless they would turn out and assist him. The Board of Trade could do a lot of good if the members would only take an interest in the work. There were several matters he wanted to bring before them that evening. One of them was in relation to the skating rink, in connection with which he thought Mr. H. E. Carlson was deserving of their best thanks for the work he had done. He had practically superintended the whole thing and done the work at his own expense, and he thought it was only right that the Town Council or the Board of Trade should reimburse Mr. Carlson for the outlay.

The president then pointed out the need for further unloading facilities at the C.P.R. platform, saying that should we get a big crop here this year the present accommodation would be insufficient. There was also the matter of Brophy's warehouse on Main Street, which owing to the roundabouts said to be existing there connected with the storage of oil, etc. had increased fire insurance \$150 per hundred more than it should. He thought the Town Council or some other body should rectify this.

The president then touched on the matter of the fire alarm, and stated that when the bell was rung Saturday last everyone turned out, sleep and assisted to push the chemical to as far as the corner of Main Street, but when they found that it was only for burning weeds they all quit and left it to about three to manipulate the engine.

There were but few of the many things that he would like to have discussed.

After these preliminary remarks of the president, the membership committee got busy in the hall and triumphantly decorated afterwards the secretary's table with \$50.00 with as many names of those seeking membership.

This, the president said, was fairly satisfactory considering they only had 27 Members last year. But he

S. K. Carson, secretary.

Remission of Duty on Tractors to Cease February 7.

Ottawa, January 15.—Remission of duty on farm tractors under \$1000 in value ceases on February 7th, unless the order-in-council granting the remission is further extended. The question of extension has been given some consideration, and it is expected will be officially before the government in a few days. It is understood that the Canadian Manufacturers' Association is making arrangements to send a delegation to Ottawa on the subject

thought they could do better than this.

M. J. Brophy came up at this stage and as the result of a little conversation between him and the president, the secretary was instructed to write the Board of Underwriters saying that Brophy's warehouse conditions had been improved and asking for a reduction in rates.

J. M. Bratton introduced the matter of an agricultural show for Bow Island and thought it would be a good thing to discuss at the next meeting. President Beattie thought so too and announced that he would give Mr. Bratton thirty minutes to expound his views on the subject.

In the matter of the skating rink it was at first decided to pass, vote of thanks to Mr. Carlson and Mr. Claude Jamieson for their kindness. Members however brought forward quite a lot of other names of residents who had contributed or promised work, or done something or other in connection with the rink, until finally the president instructed the publicity committee to frame up a vote of thanks that would be applicable to all.

Another matter taken up was the formation of a fire brigade, and the secretary was asked to get into touch with the Town Council and see if something could be done.

A member asked the question as to whether a site had been selected for the municipal hospital.

No one apparently knew very much about this beyond the fact that the Dominion government had promised the old hospital hospital ten acres near the park. No agreement to this, however, existed, and it was stated that a certain party was negotiating with the government for its purchase.

Eventually it was decided to ask the Town Council to take steps to acquire the balance of the quarter adjoining the public park.

The president now took up the matter of good roads and thought by the towns and municipal districts combining something could be done to improve their condition.

F. J. Henderson, reeve of Bow Island M.D., said his Council was doing everything it could. They must understand that it would take a long time and would involve the expenditure of thousands of dollars before the roads were in really first-class shape. His Council had spent during the past year \$500, but even at that they had not been able to do much more than fill up the rough holes.

After considerable discussion, it was finally left to A. Swennumson to move that the secretary write to the provincial government asking it to "kick across the shore" of the upkeep of the roads leading into Bow Island. The meeting then adjourned.

Free Empire More Than Match for Military Autocracy

London. — In commenting upon the report of Field Marshal Haig, the Daily Chronicle described the operations dealt with "as the most glorious achievement in the whole history of the British army."

"In Marshal Haig's strategic statement, the part assigned to the British was most important, and most difficult," the newspaper continues. "The overcoming of the Somme defences in August was a superb feat, and the breaking of the Hindenburg line with weakened forces was almost superhuman. When historians examine the miracle by which 99 British divisions judged such crushing defeats on 99 German divisions, it seems probable that, without telling our men's amazing heroism, they find a material explanation in our possession of a tactical superiority due to swift tanks."

"That these victories should have been won against the Germans' numerical superiority is sufficient proof that the manhood of the British is more than a match for the legions of a military autocracy."

"The principal reason for the dramatic change which has altered the military situation," says the Telegraph, "was undoubtedly due to the personality and genius of Marshal Haig, whose strategic conception was carried out with such fine, conspicuous loyalty by Field Marshal Haig and the British army. By it, a whole campaign was revolutionized. To this we must add as a material factor the splendid fighting capacity of the French and British soldier. It is by no means true that the enormous department of mechanical invention has deprived the infantry of its value. On the other hand, the infantryman still remains the backbone of defence and the spearhead of attack."

"As Field Marshal Haig adds: 'At no time has the reputation of the British infantryman been higher or his achievement more brilliant in recognition.' In hardly a less degree, ultimate success was ascribed to the air force, and it is interesting to note the praise that the field marshal gives to the tanks. So great had been the effect produced upon the Germans by British tanks," he said, "that in no other instance when real tanks were not available, results were obtained by the use of dummy canvas tanks."

American Plan Not Formulated

Will Not Be Until President Examines Various Suggestions

Paris. — The American delegates to the peace conference have taken note of the "American plan" for a league of nations as outlined by the Paris edition of the Daily Mail. It is said they have no knowledge of it, but what they have heard. The members of the commission declare that it did not originate in the United States.

The American plan, it is declared, is not officially formulated and will not be until the president further examines various suggestions. It is several from allied governments. It is added in authoritative quarters that the statement that the United States government has accepted the plan outlined by the Daily Mail is incorrect.

Lloyd George Says German Armies Are Still Powerful

London. — Demobilization demonstrations have been repeated at the war office and some of the country camps. Gen. Robertson, commander of the forces, again received a deputation and promised the men the fullest investigation of their grievances. An appeal was issued on behalf of the premier, saying Lloyd George was giving his personal attention to the matter and urging that, as the German armies still were powerful, it was necessary for Great Britain to maintain a strong army during the peace negotiations.

The men were urged to submit patiently to the inevitable indignities and hardships. They were reminded that discipline was imperative and that the present course of the soldiers would delay and not advance demobilization. The following is the text of the official statement issued regarding demobilization:

"The prime minister has been giving careful personal attention to the speed at which the demobilization of the army is being maintained. He considers that his first duty is to

Troops Awaiting Attack

Berlin. — Spartan forces are being massed at several places where weapons and armored cars have been concentrated. In Wilhelm Strasse the government forces are awaiting an attack. Government troops have been posted on top of the Brandenburg gate and adjoining buildings with machine guns. The troops in the government buildings have been equipped with flame throwers.

The Associated Press correspondent saw a troop of about 80 Spartans, half soldiers and half civilians, all armed and having with them one machine gun, march through the Potsdam Place toward the Bolshevoitch government building.

Praise for General Haig

Does Not Lessen Gratitude to Marshal Foch

London. — Writing in the Daily News of Field Marshal Haig's report, Major General Sir Frederick Maurice, former chief commander of military operations at the war office, comments upon the calm with which the brilliant succession of victories which the British armies won in the autumn, was received at home.

"Our gratitude to Marshal Foch," he says, "need not be lessened if we follow his example in paying to Field Marshal Haig and the British armies the tribute which is their due. The British commander justly claims that the decisive effort of the whole campaign was the battle of Cambrai from September 27 to October 5, in which the British third and fourth armies broke the vast defences of the Hindenburg system."

British Staff is Already in Paris

Canadian Mission Also Has Representatives There

London. — The principals of the peace conference are in Paris in readiness for the conventions of the allied powers, at the offices of the French ministry of foreign affairs. A considerable proportion of the British official staff, which is to assist the delegations, is already in Paris. The Canadian mission also has representatives there making the necessary arrangements for the convention for the Canadian party.

The whole British mission is to be housed in two large hotels, the Astoria for officers and the Majestic as headquarters. Arthur J. Balfour and Lord Robert Cecil, who have charge of the British case in relation to the proposed league of nations, are already in France, and Lloyd George and Bonar Law will cross immediately after the new government is announced.

Home Rule for India

London. — A despatch from Reuters' Delhi correspondent announces that at the nationalist congress there a motion in favor of full provincial autonomy and against special elections for Europeans was carried by acclamation. The congress passed formal resolutions of loyalty.

make sure that the fruits of victory which have been won by the sacrifice of so many lives and by so many brave deeds are not jeopardized by any apparent weakness on the part of Great Britain during the critical moments of the peace negotiations.

"The military situation is imperative that we should maintain a strong army on the Rhine, and, of course, necessary services behind the front, both in France and at home. 'Although the fighting has stopped, the war is not over. The Germans have not been demobilized, and are still very powerful. No one can tell whether the Germans will do, nor whether they will agree to the terms of peace and the program which we seek to impose upon them; impatience now might lose, in a few weeks, all it has taken years of heroism and sacrifice to gain.'"

"During the next few months we must be strong and united in order that a firm settlement may be made with the enemy and that our country may exert its proper influence among other nations at the peace conference."

Poles are Defending Lemberg

German Guns and German Gunners Destroying City

Warsaw. — The Poles are making gallant defence of Lemberg with limited means, but the Bolshevik Ukrainians, aided by German guns and German gunners, slowly are destroying the city.

The besiegers are estimated to number 50,000, commanded by former Premier Hoholowicz of the Ukraine, who also was chairman of the Ukrainian peace delegation at Brest-Litovsk.

The Ukrainians threaten the water and electrical supply of the city, while food is becoming very scarce. Only a few of the civilians have been able to escape from the city owing to the poor railway service. The Polish troops are being aided in the defence of the city by many citizens of Lemberg, including girls and boys. In November the citizens aided the Poles in saving the city from the Ukrainians.

War Tax Over Fifty-eight Millions

Ottawa. — The total amount of assessments made under the business profits war tax act, to date, is over \$58,000,000, of which over \$54,000,000 have been collected. It is estimated that by the end of the present fiscal year about \$65,000,000 will be realized. This is more than double the estimate made in the budget speech when the business profits war tax act was introduced.

Notable Canadian War Correspondent

F. A. McKenzie

Mr. F. A. McKenzie, the war correspondent, who has come to Canada straight from the fighting front to deliver a series of lectures on the recent battles in France, is a Canadian by birth, although he has lived most of his life in Great Britain and other parts of the British empire.

MAY CALL STRIKE

To Compel Removal of Censorship Bans on Press

Medicine Hat, Alta. — The convention of the Alberta Federation of Labor contemplates drastic measures to compel the removal of all censorship in the province, and, as a majority of the delegates are prepared to go the limit of calling a general strike in sixty days.

After this, the convention committee referred a resolution on the matter back to the resolution committee for the purpose of strengthening its phrases so as to indicate the strong feeling which pervades the convention. All elements are agreed as to the injustice of the censorship now in the way is over.

Trotsky Worked in Freight Sheds

Toronto. — The Toronto Telegram recalls the fact that Trotsky, the new sole director of Russia, once worked in the freight sheds of the Canadian Pacific railway at Montreal and that he has a claim against them for \$14 for alleged arrears of wages, as he left without notice. Trotsky also claims the attention of Canadians in that he organized a Toronto branch of the I.W.W. when in New York.

Reverses for Bolsheviks

Washington. — Lloyd-Russell troops operating under the authority of the Onsk government have defeated a large Bolshevik army, capturing 31,000 prisoners and large quantities of war material, according to a telegram from the Onsk authorities to the Russian minister at Stockholm.

The military press at the Swedish press, was received at the state department.

Import More Foodstuffs

London. — Imports into the United Kingdom during December increased £14,000,000 over the same month in 1917, according to statistics made public by the board of trade. The increase was mostly in foodstuffs and raw materials, and the country was cotton. Exports increased largely by cotton textiles, £2,000,000 of the increase.

Strong Demand For Staple Products

Countries Involved in War Will Be Come Increased Consumers

Washington. — At least 1,400,000 tons of foodstuffs, costing approximately \$35,000,000 delivered, will be needed to carry through until the war is over, the population of the British empire as far as the commission on European relief. This estimate was sent by Herbert Hoover to the food administration in a cablegram reviewing the conditions as found in central Europe and the Balkan States.

Recommendations that the United States take the initiative in formulating an international program of agricultural production for the world to forestall a possible serious shortage of food, feed and fibre in the next few years was made to the department of agriculture by the commission sent to Europe last fall by the department to study conditions there.

The commission said that conditions found in England, France and Italy, indicated a strong demand for staple agricultural products of the United States such as wheat, sugar, cotton and wool, and that prices will be steady and at a high level.

All countries involved in war will at once become increased consumers when governmental restrictions upon foods are recalled.

Raised Tri-Color in Smyrna

Athens. — According to a report received here from Smyrna, the director of the Austrian hospital at Smyrna, after the departure of the Austrian consul, raised the tri-color flag over the hospital, under the belief that France was the protector of Roman Catholic institutions in the province.

The Italian consul, it is declared, demanded that the French flag be replaced by the Italian flag immediately. The director of the hospital refused. The Italian consul, it is added, then requested the Turkish military authorities to arrest the director. He is reported to have been arrested and placed aboard an Italian ship.

New Airplane Speed Record

Cleveland. — What is believed to be a new world's airplane speed record was set in a flight from Dayton to Cleveland by Pilot Eric Springer and Mechanic Ernest Longchamp in a Martin bombing plane driven by two Liberty motors. The 215 miles were covered in one hundred and fifteen minutes, an average of 172 miles an hour. The previous record between the two cities was two hours flat.

New Milk Record Set

Woodland, Cal. — Tilly Atalanta, a registered Holstein cow, was found to have made a new world's record for milk production when the final test of the year was completed. Tilly's production for the year was 34,348 pounds, or about 171 2/3 gallons. She takes the honors from a Washington Holstein, Lutske Vale Cornucopia, of Chicago, who made a record of 31,269 pounds two years ago.

Supplies for Y.M.C.A. Huts Burned

Paris. — Damage to the amount of several million francs was caused by a fire in the large warehouse at La Villette suburb. The loss included a considerable amount of goods belonging to the Y.M.C.A. for use in its huts.

Opposition Bench Will Be Occupied By Labor Leaders

Cannot Trust Germany

London. — The admiralty in a statement regarding demobilization, explains the procedure which has been adopted with regard to freeing for civil life the men of the seas. It adds that it cannot be expected that complete demobilization of the navy and the restoration of the sea force to a peace footing can take place for a considerable time.

"Until the preliminaries of peace are signed," says the statement, "it is necessary to retain in home waters a portion of the grand fleet in a state of readiness to meet any eventualities."

West Will Fill Part of Order

Great Britain Buys Lumber Valued at Forty Million

London. — As the outcome of negotiations carried on by the Canadian trade commission for the past month, the timber controller of Great Britain will purchase in Canada half a million standards of lumber, equivalent in the Dominion to 1,000,000,000 square feet.

The lumber, which is to be of all grades, will be bought under the direction of the lumber controller through British brokerage houses and the Canadian timber agents in London, who will deal direct with the Canadian lumber producers.

It is understood that every Canadian producer who is registered on the lists of the trade board at Ottawa will be given an equal opportunity to be considered.

There is also to be an allocation of purchases upon a territorial basis, thus ensuring a fair proportion of purchases to Western Canada.

All the British Columbia lumbermen are represented here by L. C. Steele, timber commissioner for the province, who is attached to the staff of F. C. Wade, agent-general for the province in Great Britain, and he will deal directly with the lumber controller.

This lumber is to be bought within the next twelve months. It will represent a total transaction in money value of about \$40,000,000.

Janitors Strike in Warsaw

Demand Ten-hour Day, With Doors Closed at Nine O'clock

Warsaw. — The waiters and janitors of Warsaw, who are among the best paid in the city, have gone on strike, and the house servants are expected to follow their example. The domestic staff are even now only consenting to work if the mistress does her share of the labor of the household, especially the dishwashing and similar services. The waiters demand 15 per cent. of the profits of the hotels and restaurants, while the cooks are asking 25 per cent.

The janitors demand a ten-hour day, with the front doors closed at nine o'clock in the evening. As the tenants have no keys to the front doors of the apartment houses they are obliged to stay indoors through fear of being compelled to pass the night in the streets. The janitors, however, express willingness to concede permission for the tenants to get out after nine o'clock and come in late if they pay a fine of one mark for each time they thus trouble the janitor.

Most of the evening engagements of apartment dwellers are being given up owing to this situation and the streets are virtually deserted at night.

Food Conditions Improved

Restaurants in Paris are No Longer Restricted

Paris. — To the decree signed by Victor Boret, the food minister, abolishing food price controls on condensed milk, tapioca, macaroni and similar products, as well as on eggs, rice and beans, is added the warning that any abuse of the privileges granted by the decree will lead to the re-imposition of fixed prices.

The restaurants, under the new ruling, are no longer restricted as regards the hours during which meals may be served, nor as to the composition of the menu nor the price charged. They may now serve cheese, butter, milk and cream, which they previously had been forbidden to do.

The schedule of prices, however, must still be posted outside the eating houses.

London. — The British Labor party has decided to accept the responsible position of official opposition to the government in this is a landmark in British parliamentary history.

The Labor party's position as the largest body outside of the coalition has enabled it to this distinction and its leaders will take their seats on the front rows.

At the same time, though the Labor party has the numerical advantage, it is to be remembered that there are numerous Liberals in the coalition and that the total number of Liberal members of parliament is well in excess of the total number of Labor members.

The leader of the opposition will be William Adamson, representing the Glasgow constituency of West Fife, who works as a miner for twenty-seven years. He has strongly supported the government in its prosecution of the war. John Robert Clynes, who held the office of food controller, is to be deputy leader. He withdrew from the government in compliance with the decision of Robert Clynes, who held the office of food controller, is to be deputy leader. He withdrew from the government in compliance with the decision of Robert Clynes, who held the office of food controller, is to be deputy leader.

Three of the seven officers appointed by the Labor party, including the chairman, are miners.

U. S. Attitude Is Not Defined

Toward Treaties Between European Powers

Paris. — The attitude of the United States toward the treaty between Italy, France, Great Britain and Russia, relative to the League of Nations, has not been clearly defined, as far as is known. When it is understood that the League of Nations, relative to the League of Nations, has not been clearly defined, as far as is known. When it is understood that the League of Nations, relative to the League of Nations, has not been clearly defined, as far as is known.

Article four of the treaty provides that the future treaty of peace will give to Italy the Trentino, the whole of South Tyrol, Trieste, Gorizia and Gradiska, the province of Istria and the Italian islands.

Italy gives Dalmatia and the Dalmatian islands to Italy. Other articles deal with Albania and zones in Asiatic Turkey in the case of Turkey being broken up.

Germany Unscathed

In Some Places People Preserve Hope of Revenge

Paris. — The correspondent of the Petit Journal with the French armies, draws a strong contrast between the war having been France and Germany. France, he says, although victorious, is still bleeding from incurable wounds, whereas vanquished Germany is regaining its strength. The feast and bustling activity has been resumed in some of the factories.

By depicting the woes in the devastated regions, the correspondent adds: "Travelers returning from Germany, report that Germany is practically unscathed and in some places the people even preserve hope of revenge. Life goes on as formerly; looms are in operation, engines are humming and reconstruction work is already under way."

"In France, on the contrary, mine shafts must be consolidated and reinforced, houses and cities rebuilt and fields leveled."

German Agent Aided Mexicans

Washington. — Evlidge designed to show that Francisco Villa, the Mexican bandit leader, received \$380,000 worth of munitions from a German agent operating through the Mississippi Valley Trust Company of St. Louis in 1915 was presented to the Senate committee investigating German propaganda by Major E. J. Lowry-Humes, in charge of the investigation.

Germany Paying Up

Cologne. — Ten million marks have arrived here from Berlin by special train, this sum being the first payment on the German government of the 2,000,000 marks due in January for the expenses of the German army of occupation. The arrival of the shipment makes a total of 64,000,000 marks which has been turned over to the American authorities.

Volunteer Mine Sweepers

London. — The agitation of crews of mine sweepers attached to the grand fleet on account of slowness of demobilization has been settled by the admiralty, which has decided that only volunteers will be engaged in sweeping mines. About 65 per cent. of the crews of the mine sweeping volunteer fleet for this service.

Fitting Cows for Lactation.

(Knappland Farm Note.)

All mammals, when in proper environment under normal conditions, naturally take on flesh during pregnancy, the reserve being used in milk production when the young is born. As we expect a dairy cow to give such large milk than her calf requires it is only reasonable that she should be in extra good condition of flesh at calving time. A further consideration is the preventing of sickly well-accomplished calves which cannot be expected from poorly-nourished cows. Grain fed during the dry season has been found to give greater returns than the same amount of grain fed after calving, thus returns being in the form of a more vigorous calf and increased milk production. To have the cows in proper condition of flesh, one of the first requisites is to give them sufficient rest between lactation periods. The cow that is milked up to within two or three weeks of calving may pile up quite a record for that year but she will surely fall off in the next lactation period. Each cow should have from six to eight weeks of a rest period.

The feeding of the cow during this period will depend upon her condition when dried off. If she is in good condition of flesh then very little more than a maintenance ration is necessary, but the feeder should watch that she does not lose her thifty condition. If she has become thin and run down then a liberal ration should be allowed. The character of the ration need not differ materially from that fed to the milch cows. Pasture supplemented by silage or molasses crops in summer and roots or silage and legume hay in winter should be sufficient for the cow in good condition. Those in poorer condition should receive grain in addition up to six or seven pounds per day if necessary. It is important at all times that dairy cows receive a laxative ration last portion of the year at calving time. To this end, the grain ration should consist of such laxative feeds as wheat bran and oil cake together with either ground oats, barley or corn, preferably the former, in equal parts. For every hundred pounds of the above mixture measure there should be added 1 pound each of ground rock phosphate, charcoal and common salt. The salt is a necessity in the ration while the other ingredients act as a tonic. Cows not receiving this grain should be fed some of this tonic mixture sparingly, or the last day or two before calving the regular ration should be replaced by bran alone which should be fed up to calving time and for a few days afterwards.

To ensure the best results from the above method of fitting the cow for her lactation period she should be allowed plenty of exercise. Running with the milch cows in summer and being turned out in the barnyard for an hour or so daily in winter will meet requirements in this regard. This exercise will be found to do away with many of the calving and udder troubles experienced with cows highly fed on heat-producing feeds just previous to calving.

Farmers Wanted

To co-operate with the Bow Island Board of Trade for Mutual Benefits.

One can picture to himself, even if he has not actually realised it, the time (now happily past) when the farmer with his basket of eggs or butter approached the country store-holder, and after warily discussing the weather or other topics finally hand over his produce for what it would bring. This method of doing business, rightly or wrongly, invariably engendered feelings of suspicion on the farmer's part that he was not getting all that was coming to him.

We say above that this state of affairs is "happily past." And so it is except perhaps in a few isolated instances.

The farmer of to-day is of a much different type—more intelligent, more fully cognizant of the importance of his selling among the world's producers. He is, moreover, taking a wider and broader view of the questions at issue and is able to meet the best of them upon the public platform. Our annual conventions and various public meetings prove this up to the hilt. Consequently it is not surprising to find our local farmers taking part prominently in local affairs.

For this state of affairs none should be more thankful than the country storeholder.

When the farmer and the townsmen can get together and debate matters connected with local interests then the time arrives to formulate schemes for mutual benefit and interest.

With this co-operation and unity existing pressure can be more easily brought to bear upon our governing bodies.

Take for instance the discussion at the Bow Island Board of Trade meeting on Monday night relating to roads. Both town and country are essentially interested in this movement and the greater the co-operation existing between the two the greater the effort will be when we press home our demands.

The Bow Island Board of Trade intends during the coming year to make a strong effort to get a big representation of the farmers upon its membership roll, and is accordingly issuing a hearty invitation to all those living within the vicinity to come in and help the good work along. The annual fee is one dollar. This however is but a secondary consideration. What the Board desires is co-operation and advice, and upon various matters none are in a position to give it better than those who have had the practical experience.

BOW ISLAND U.F.A. No. 833.

President, F. J. Henderson.
Vice-President, E. D. James.
Secretary, Geo. S. Adams.
Meets every two weeks at the West Room, Main Street, Bow Island, at eight o'clock sharp.
Next meeting on Saturday, January 16.
Everyone attend.

BANK OF MONTREAL

Burdett.

Geo. H. Johnston has received word that his brother, Sgt. P. L. Johnston, has been awarded the Distinguished Conduct Medal for bravery on the field at the battle of Cambrai. Sgt. Johnston enlisted in the 87th Grenadier Guards and went overseas with them about three years ago. He has been wounded twice.

Mr. and Mrs. C. T. MacKinnon returned from their trip to the coast on Tuesday, 7th inst., receiving a hearty welcome from numerous friends.

The Village Council at its first meeting last week appointed A. H. Rygg as reeve of the village. It also decided to grant a sum of \$200 towards the hospital expenses. The Councilors this year are Messrs. A. H. Rygg, J. H. Sandy and R. D. Strong.

Our congratulations are extended to Mr. and Mrs. G. H. Robinson on the addition to their family of a ten-pound boy. The event took place at Tabor on January 2nd.

The Burdett school re-opened on Monday last. The principal has not arrived and consequently high school has not yet commenced.

Mr. and Mrs. A. H. Rygg are visitors to Calgary this week.

The members of the L.D.S. church met for public worship on Sunday last, there being a good attendance. Service will now be held every Sunday at 2:30 p.m. Sunday school at 11 o'clock.

Residents are glad to see their theatre opened again. A show and dance will now be held every Friday.

The Brownsdale school district has elected new trustees as follows—Hugh McCalliard, John Vail and G. T. Goodyear, secretary.

John Hamilton with his wife and family moved into their new bungalow last week.

Mrs. Vincent Bowe and family, who are under special treatment for the flu at Medicine Hat hospital, are reported to be progressing very favorably.

The local hospital established for flu patients has now been closed and a thorough disinfecting of the entire premises is being proceeded with.

The Ballman school opened on Wednesday, Miss McComin as teacher. At a meeting held last Saturday the following were elected trustees—R. Stangum, Alex. Jackson and Ray W. Lyons, secretary.

Life Companies Assisting.

Some of the big insurance companies are co-operating heartily to popularize the Canadian War Savings Plan. The Prudential Life has organized its staff throughout the Peterborough district into a War Savings Society, in which every man in the district has agreed to purchase stamps under the plan outlined by the Dominion Government.

The Great West Life is printing on all letterheads "BUY WAR SAVINGS STAMPS". As they send out an immense amount of literature, this is a free advertisement of much value.

FOR SALE.

A cow due to calve in about 2 months, also a nice grade calf about 9 months old. Reasonable price for either or both of them—Apply box 182, Bow Island.

Chaos Threatens Europe

Tide Can Be Stopped Only by Early Peace

London.—The past week has witnessed a strong and general demand from the most influential British newspapers, regardless of politics, for the prompt meeting of the peace conference and prompt action to stem the tide of chaos which is threatening Europe because of the introduction of Bolshevism by way of the border states.

There is a dwelling recognition that if anarchy seizes Central Europe, the decisions of the peace conference in drawing boundaries and levying indemnities can be enforced only through military control by the allies and the agreements otherwise becoming merely "scrap of paper."

Minard's Liniment Cures Diphtheria

Saved by Britain

Tribute Paid by James R. Day of University of Syracuse

Toronto.—That Britain saved the world is the tribute paid by James R. Day, chancellor of the University of Syracuse, in a letter received by Sir John Eaton. One paragraph of his letter follows:

There is not a shadow of doubt that Great Britain saved the world. We did not see little part, but without Great Britain we would have been fairly too late, while, without Great Britain would have forced the tide to victory, but we all rejoice together now. I hope that our present and the peace delegates will have wisdom enough to be guided by the thousand years of diplomacy that Great Britain will furnish them.

Establish Canadian Credit in France

Negotiations Were Opened Upon Signing of Armistice

Ottawa.—In reference to the matter of Canadian credit in France, it is stated that the purchase of commodities in Canada required for the reconstruction of France, it is stated that immediately after the signing of the armistice negotiations were opened by the minister of finance with representatives of the French government in the U. S. looking to the establishing of a credit in France. The matter was placed before the French government for consideration. It is reported that the members of the Dominion government now overseas and the representatives of the Canadian trade mission who are about to visit Paris, will be able to complete arrangements at an early date. The government here has called all necessary information as to terms of the proposed credit.

Allies May Have To Force Issue

Germany Has Failed to Comply With Armistice Terms

Paris.—Only a few more days remain before the expiration of the time allotted to Germany for the meeting of the armistice terms of Marshal Foch, and many of the details will remain not entirely complied with. This is particularly true as concerns Article 4 of the armistice, regarding the surrender of the armistice, especially guns and airplanes.

About 5,000 trucks have been delivered but the number of railroad engines turned over is only one-third the number stipulated in the armistice—5,000. A great number of the 10,000 railway cars in good working order, called for, are still undelivered. In addition naval units, including submarines, remain in German ports, although under the terms of the armistice they should have been surrendered.

A tender to the non-fulfillment of the armistice by Germany is the failure of Germany to immediately begin the repatriation of soldiers held as prisoners, and in high quarters the question has arisen, if the armistice is not being complied with, the inter-allied command will not be more severe in its dealings with Germany than the expected request for a further delay in meeting the allied terms comes up for discussion.

Mammoth Fighting Ship

H.M.S. Hood Goes Forty Miles an Hour

London.—Although no official statement has yet been made, it is reported that the British warship Hood, now nearing completion, is the largest fighting vessel in the world.

She is 894 feet long and will carry eight 15-inch guns. Her hull is fitted with an outer casing against which torpedoes and mines will explode harmlessly.

She is expected to make a speed of at least forty miles an hour. The Hood will cost three million pounds sterling. It is stated that three other battle cruisers of the same type are being built.

Would Be Great Blow to Berlin

Capture of Bentschen Would Cut Communication With Silesia

Polish troops have occupied the railway station at Chocholuk, four miles from Bentschen and have sent an ultimatum to the German commander in the latter place, demanding that the station be handed over. The demand has been refused and the Germans will defend Bentschen at all costs, according to the Tagblatt.

Threatened With Paralysis

Severe Nervous Headaches and Numbness of Hands and Feet

Was Most Alarming, But Satisfactory Restorative

Port Harry, B. C. Jan. 15.—This very interesting statement from Mrs. Sinison in regard to her cure for a severe case of nervous exhaustion, and the symptoms, pointing toward paralysis, was made at the time there was time to set up the building-up-process, and by the persistence of the food cure has obtained restoration.

Mrs. E. Sinison, Port Harry, B.C., writes:

I have been very sick with nervousness, and this trouble seemed to settle in my head. I had nervous headaches, numbness of my head, and also in my hands and feet. I had pain in my back and legs. I had a great deal of trouble in getting to sleep. I had a great deal of trouble in getting to sleep.

I had a great deal of trouble in getting to sleep. I had a great deal of trouble in getting to sleep. I had a great deal of trouble in getting to sleep. I had a great deal of trouble in getting to sleep.

The BOW ISLAND SADDLERY

Diamond Tires and Auto Accessories,
W. J. OLIVER, Proprietor.

Local and General.

The Bow Island Troop of Boy Scouts held their first regular meeting in their new headquarters north of Mr. Dinning's. Their next meeting is called for Monday January 30th, at 7:00 p.m. They intend to entertain the other town boys of Scout age in the near future.

A business meeting of the Ladies' Aid of All Saints was held at Mrs. Bainbow's on Wednesday, December 16th. The Aid will meet on Thursday, January 2nd, at Mrs. Ridgeley's for quilting. All members of the church are cordially invited.

Miss Isabel Whitney L.A.B. (Liontate Associated Board of the Royal Academy and Royal College of Music, London, Eng.) will give music lessons on the pianoforte at her residence on Lathbridge Ave.

Chancy Morey has disposed of his house and lots on First Avenue to J. W. Hurd.

W. J. Morrison of Granville is being treated at the Medicine Hat hospital for his cable. It appears that he sustained the injury last year and for some time treated it for a sprain, but the X-rays disclosed the fact that a bone was broken. It will probably be some time before he is around again. Mr. Morrison is meanwhile staying in town at Mrs. Bruce's in order to keep in touch with her husband at the Hat.

Mr. and Mrs. Wilfrid Henderson are expected home next week.

Owing to a deluge of news this week our reports of the School Board and Town Council are unavoidably held over until next week.

Bow Island U.F.A. had a crowded meeting last Saturday night and much interest was evinced in the proceedings. F. J. Henderson who proved to be such a popular president last year, was unanimously re-elected, as was also the energetic secretary, Geo. S. Mond. L. D. Jansen was elected vice-president. The Board of Directors was elected as follows: R. L. McHugh, H. E. Schorsch, E. A. Vervoer, A. Bean, F. W. Taylor and Jeff Ross. With such officers at the head of the association the members can look forward to some interesting meetings. The next one will be held on Saturday next. Don't miss it.

The Review is requested to extend a cordial note of thanks to all those who contributed work etc. to the skating rink, and further, to add that the citizens very much appreciate the service and kindness of those who in various ways are still maintaining interest in the skaters' welfare and enjoyment.

MALEB.

The U.F.A. is giving a concert at the Pettie Plains schoolhouse on night, 17th inst, at 7:30 p.m. Refreshments will be served.

A crowd of young people gathered at the home of Mr. and Mrs. George Martner on New Year's Eve. Everybody had an enjoyable time in playing games.

Mr. Robt. Goldreich has returned home from Medicine Hat, where he spent a couple of weeks.

The Welland Land Co. is having an auction well-dressed by Mr. Wright.

Mr. Julius Hing was a visitor at Mr. and Mrs. A. Goldreich's for the weekend.

Mr. and Mrs. J. Nell were callers at Mr. and Mrs. C. F. Henry's Sunday last.

The Hague school opened January 2nd. Mr. Norman MacKnight is teacher.

We hear that the boys of this village are on their way home from England.

The Pettie Plains school opened on January 6th.
S. O. Reynal and T. Hart were callers in this vicinity the other night.

WINNFRED.

Mr. and Mrs. Geo. Scott entertained Sunday at their home Mr. and Mrs. Paul Hedding and Mr. and Mrs. L. C. Freeman.

A very sumptuous dinner was served and the guests after being entertained all a late hour were served a delicious luncheon and departed vowing Mr. and Mrs. Scott royal entertainers.

The U. F. W. A. held a special meeting Saturday to discuss business regarding convention called by Mrs. Wm. McDonald Pres.

The Churches.
